Yes that is fine. Scott Wesselkamper will be with me. We talked about options yesterday and will look forward to hearing more from the Region.

John, Annette – I will plan to facilitate this call today. However, I will leave it to you to manage the body of the call – the technical input you have, questions for the Region, etc.. So, after kicking off the meeting and doing roll call, I will hand it over to you John. Let me know if that works for you.

Greg
